1	7/30/2015	530.1.1 Comment involve the last paragraph of this section: Services may be provided by the school through extended school year services. This should be clarified in regard to the statement when school is not in session. Other than extended school year, the student's written IEPs would not address services when school is not in session.	NC		The IEP established by the school system would provide information for continuation of the treatment plan by the private practitioner.
2	7/30/2015	530.1.2 Birth-to-Three. Students are transitioned to the school system during a 90-day time period prior to the child's third birthday. Coordination of member's transition to the school system needs completed by the child's third birthday.	NC		Coordination of member's transition to the school system is the responsibility of the WV Birth-to-Three Program. The Medicaid Program is payer and not the coordinator.
